

Navigate360: Using Rich Text Editor

Allow users to enhance email messaging

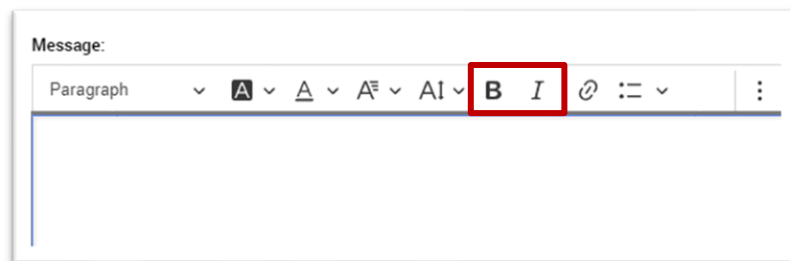

1. Compose a new email message

- Rich Text Editor (RTE) is available anywhere that a user is able to compose email messages:
 - Send a message dialog
 - Setting up campaign or event messages
 - Nudges
 - Alert configurations
 - Content templates

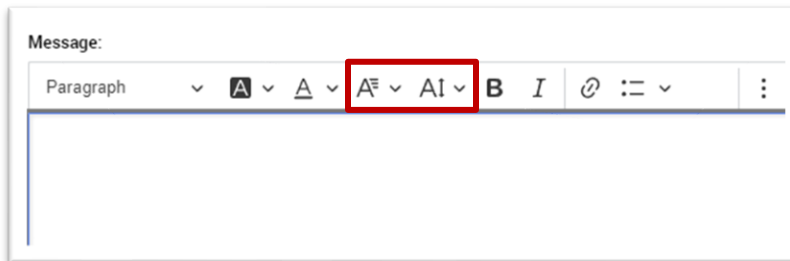

- Features:

1. Text Formatting:

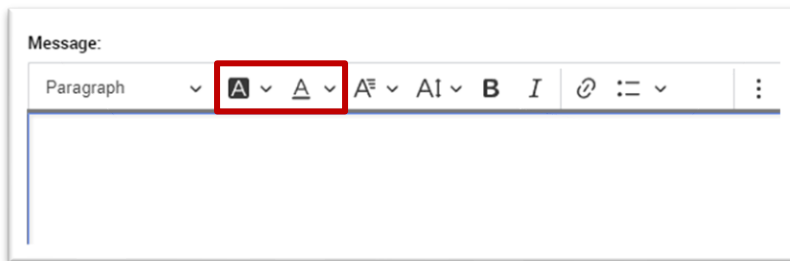

- **Bold and Italic:** emphasize important text

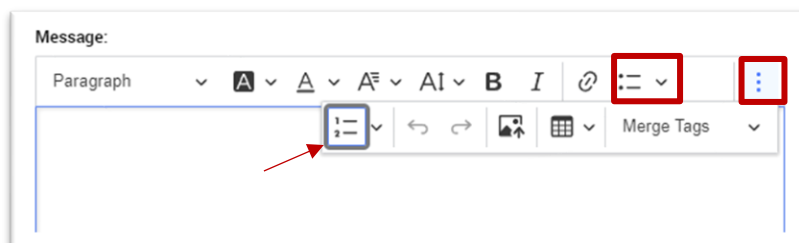

- **Font Size and Style:** variety of fonts and sizes

- **Text Color and Background Color:** add color or highlight your text

- **Paragraph Formatting:** align, indent, and bullet or number lists
