

# Free Documentary Viewing

A FILM BY DR. DALE OKORODUDU, M.D.

Sponsored By:

The Multicultural Association of Pre- Health Students  
The Office of Medical Professions Advisement

## **Synopsis**

Less black men applied to medical school in 2014 than in 1978 and black men have the lowest life expectancy in the United States. With only 2% of American doctors being black men, this comes as no surprise. This documentary dissects the systemic barriers preventing black men from becoming medical doctors and the consequences on society at large.
