

# Tennessee Drought Update

For the assessment period ending August 15, 2023

## This Week's Drought Monitor of Tennessee Map

From the US Drought Monitor, authored by Lindsay Johnson, National Drought Mitigation Center with input from the Tennessee Climate Office

Conditions across the state have improved over the last drought monitoring period, with only a small amount of Abnormally Dry (D0) conditions remaining across 6 counties in southern Middle Tennessee.

## Change Since Last Week
