College of Business and Technology
Honors-in-Discipline
Required courses for Computing Majors

Course	Credit Hours
CSCI 1250.088 Honors Introduction to Computer Science I **OR** CSCI 1260.088 Honors Introduction to Computer Science II	4
CSCI 3400.088 Honors Networking Fundamentals	3
CSCI 3500.088 Honors Information Security and Assurance	3
CSCI 3048.088[1] Honors Methods of Research	3
CSCI 4018.088[2] Honors Thesis (2 semesters)	6
	19 total
Notes:	
1. CSCI 3048 cannot be used as a major elective.	
2. Only three of the six credit hours can be used as a major elective.	
If a student has already taken one of the required courses in the HID curriculum, an honors-enhanced course may substitute for that course. An honors-enhanced course is a 3000/4000-level course in the Computing Department that includes enrichment experiences in addition to the regular course requirements. A form for creating an honors-enhanced section of a course ("Course Enhancement Agreement") is found on the College's HID website. The completed form must be submitted to their departmental coordinator within the first two weeks of the semester. The student should work with their departmental HID coordinator to find an honors-enhanced course. Honors-enhanced courses may be used to satisfy no more than two courses (i.e., six - eight credits) of the required hours (upon approval of their departmental HID coordinator). No course enhancements may be substituted for the student's Honors Methods of Research or Honors Thesis courses.
