JOHNSON CITY, TN

908-894-4295

Beer.matthew@gmail.com

## OBJECTIVE

Epidemiologist and Doctor of Public Health student with experience conducting epidemiological investigations, spatial analysis, data management, and working in a supervisory role at a county-level public health agency. Looking to further increase my knowledge base and develop skill proficiencies through experience and collaboration.

## EDUCATION

### Doctor of Public Health in Epidemiology

East Tennessee State University  
2021-Current

### Master of Public Health in Epidemiology

East Tennessee State University  
2018-2020

### Graduate Certificate in Global Health

East Tennessee State University  
2018-2020

## KEY SKILLS

Critical Thinking  
Risk Management  
Leadership  
Instructional Design  
Data Management  
Communication

## EXPERIENCE

*August 2021 - Current*

### Graduate Research Assistant • Center for Rural Health Research

- Primarily assisted with the statewide COVID-19 response evaluation through data management and reporting.
- Developed products for both research and dissemination using multiple software packages: REDCap, ArcGIS Pro, and Tableau.

*April 2020 – April 2021*

### COVID-19 Epidemiologist • Sullivan County Regional Health Department

- Conducted epidemiological case investigations of ongoing COVID-19 cases, identified possible clusters and outbreaks, and managed county-level COVID-19 data.
- Team lead for all COVID-19 investigations; addressed public questions, provided input and data to higher-level leadership, and supervised the COVID-19 PHIT.

## MILITARY EXPERIENCE

*August 2008 – August 2013*

### Sergeant • United States Army

- Acted in various leadership and advisory roles; developed, implemented, and evaluated various training programs while providing strategic advice to higher leadership.
