

# Accessing Course Evaluation Results

*Using the Course Evaluation & Surveys (CES) system*

**\*\*Please note: The system is not compatible with Safari or FireFox internet browsers, so please use another browser, such as Chrome or Edge.**

## 1. Access ETSU's D2L Brightspace Platform

Navigate to <http://elearn.etsu.edu>. Using your ETSU credentials, log in to the learning management system.

## 2. Launch the Course Evaluation & Surveys Dashboard

Please scroll to the bottom of your My Home page, which is the default landing page for D2L. Locate the “**My Surveys**” widget and click on the link titled “**Click here to access the Course Evaluations & Surveys system.**”

## 3. Identify the Appropriate Semester

Clicking the link (mentioned in Step 2) will open the Course Evaluation & Surveys Dashboard, providing access to your Course Evaluation results. These results are organized by semester. Click the “Results” tab, and then click “Project Results” from the dropdown menu. Click the appropriate semester to access course-specific evaluations.

## 4. Download the Course Evaluation Report

For a particular course, click the download icon located to the far right of each course name (under the column titled “Report”). Clicking this icon will download a copy of the course-specific evaluation report to your default download location. (The default download location for most users is the Downloads folder.)

## 5. View the Course Evaluation Report

Open the PDF from your default download location to view the evaluation results. The filename will begin with the course CRN and semester code.
