Art and the Sacred - For millennia, people have been fashioning material images of their gods, visually narrating traditional stories and scripture, demarcating and monumentalizing sacred space, and furnishing these holy sites with exquisitely made ritual furnishings and equipment. This course will introduce students to a selection of case studies drawn from a variety of global cultures, each designed to engage with a core theme in the study of material religion. Due to its global and diachronic scope, the course will have a strong anthropological orientation, acquainting students with fundamental works of (art) historical and theoretical scholarship and encouraging cross-cultural comparison. Throughout the course, emphasis will be placed on art and architecture of premodern cultures. Among the topics to be studied are divine images, aesthetics and agency, iconography (tradition v. innovation), mythography, iconism v. aniconism, the sacred and profane, ritual, pilgrimage, and relics and souvenirs.

ECED 4570 and ECED 5570 - A Criminal History Background Check is REQUIRED for this course. The Criminal History Background Check is required by Tennessee State Law. The process of obtaining a background check takes up to 4 weeks so please obtain it 4 weeks prior to the beginning of fall 2021 semester. The background check must be on file with the Clemmer College by September 13, 2021 or student will be dropped from this course. To obtain a Criminal History Background check for this course visit <https://www.etsu.edu/coe/educator-preparation/background.php>. Students registered for ECED 5570 are required to have a subscription to LiveText. A subscription to LiveText only needs to be purchased one time and can be used in classes for which it is required for up to five years. Purchase LiveText at the ETSU Bookstore on online at www.livetext.com An orientation meeting will be held on Wednesday August 25, 2021 at 7:30pm on Zoom

<i>The 12 hour field placement component of EDFN 2400 requires an ETSU specific background check PRIOR to the first day of class. You may get information on this process, including details about fingerprinting locations, on the Clemmer College Teacher Education website, or by stopping by Warf-Pickel 321 and asking for more information. All candidates are advised that progression through the teacher education programs of study requires specific test scores and grade criteria. Please see the Clemmer College catalog or speak with an advisor for more information.</i>

The 12 hour field placement component of EDFN 2400 requires an ETSU specific background check PRIOR to the first day of class. You may get information on this process, including details about fingerprinting locations, on the Clemmer College Teacher Education website, or by stopping by Warf-Pickel 321 and asking for more information. All candidates are advised that progression through the teacher education programs of study requires specific test scores and grade criteria. Please see the Clemmer College catalog or speak with an advisor for more information.

The War in the Modern World course is a chronological review of the people, events, and trends that affected the development and employment of the United States Army from its colonial beginnings thru the present. Students will combine directed readings, individual research, and classroom instruction to learn about the evolution of the institution, different theories of wartime expansibility, synergies and tensions between the Regular Army and the Reserve Components, tactical organizational changes, growth of the profession of arms and professionalization of its members, and important technological developments. We will spend some time on the application of the Principles of War to selected tactical and operational level battles and campaigns. Throughout the course, students will analyze themes from history to identify an "American Way of War", assess the manner in which it evolved, reflect on the effects of that Way of War on them personally, and project requirements for change.

The Vietnam Wars course studies the history of three Indochina Conflicts occurring between 1875 thru 1975 focusing on the military and civil-military aspects of the Conflicts. The course will cover the Conflicts in five periods. The first period covers the French Colonial era, 1875-1940. The second period covers the return of the French and the introduction of US advisors, 1945-1954. The third period focuses on the work of the advisors and sets the stage for introduction of US conventional forces, 1955 thru 1963. The fourth period addresses the peak of the US involvement, 1964-1969. The fifth period follows the US drawdown, end of direct US military involvement, the conclusion of the War, and the aftermath during the period 1970 thru the present day. We will examine the function and military actions

of French, Viet Minh, US, Republic of Vietnam, Democratic Republic of Vietnam, and Viet Cong organizations, technology, tactics, and paramilitary operations within the area of operations. This course will cover the diplomatic, informational, social, and economic aspects of all three Wars, including those actions and effects leading to, during, and following the conflicts.

-----------	-------	-----	---------	------	------------	----------	----------	------	--------------	------------	-------	-------------	----------------	------------	----------

NOTE: MATH 1710-FD1 meets the first seven weeks of the term (August 23-October 8) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom." This section, along with MATH 1720-FE1, is ideal for students who want to take their entire precalculus sequence in one semester.

MATH-1710-FD1	Precalculus I (Algebra)	84552	3	TR	02:15 PM	03:35 PM	A010	314	Class	MCGILL	MATH 43	41	2	Y

NOTE: MATH 1530-007 is recommended for students majoring in Biological or Health Sciences, pre-professional majors, for students in the Honors College, and for students who plan to take Biology I for majors interested in studying a general education course in a focused setting. A special textbook, Seier & Joplin (2011), Introduction to Statistics in a Biological Context, will be used. A permit must be recommended by the Department of Biological Sciences and entered by the Department of Mathematics and Statistics.

-----------	-------	-----	---------	------	------------	----------	----------	------	--------------	------------	-------	-------------	----------------	------------	----------

NOTE: MATH 1720-FE1 meets the last seven weeks of the term (October 18-December 9) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom." This section, along with MATH 1710-FD1, is ideal for students who want to take their entire precalculus sequence in one semester.

SOWK 4957-901 Special Topic "Child Trauma & Policy" Course Description": This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

SOWK 5957-900 Special Topic: "Child Trauma & Policy" Course Description: This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

Surveying & Mapping

Full Term

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Meeting Type	Instructor	Dept.	Max Enroll.	Actual Enroll.	Seats Left	Gradable
-----------	-------	-----	---------	------	------------	----------	----------	------	--------------	------------	-------	-------------	----------------	------------	----------

This is a classroom-based section. Students will attend classes in person on ETSU's main campus as scheduled. Recordings of each class lecture session will be available via the course D2L page. Students wishing to stream the class live from home must enroll in the -995 section. There is a lab associated with this class, and the labs may require coming to class on campus. Contact the course instructor for questions or to make special arrangements.

---------------	--------------------	-------	---	---	----------	----------	------	------	-------	--------	------	----	---	----	---

This is a synchronous on-campus and distance learning class. The lecture portion of section -995 is a live video streaming section made available to students via Instructional Technology. Students may log in to the live class using a computer at the same time the -001 section is scheduled. Recordings of each class lecture session will be available via the course D2L page. There is a lab associated with this class. The synchronous distance section students may have to come to campus at the regularly scheduled time for exams and to perform lab assignments unless they identify and get approval for an affiliate to proctor the exams and lab assignments off-campus. Other requirements will be addressed by the professor. Contact the course instructor for questions or to make special arrangements.

ENROLLMENT FOR SEVIERVILLE STUDENTS ONLY SOWK 4957-981 Special Topic "Child Trauma & Policy" Course Description": This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.
