Students enrolling in ACCT 2020 must have completed the math requirement for their major. ACCT-2020-521 is a classroom-based section taught and delivered by Instructional Television. Students will attend classes in person on ETSU's main campus as scheduled. Recordings of each class session will be available via the course D2L page.

In this course students will develop interdisciplinary works of art that engage both traditional and contemporary approaches through the use of new and evolving technology in artistic practice. Students will have the opportunity to express their personal vision and explore new venues and mediums to develop a cohesive body of work. There will be at least one required field trip that will take place outside of regular class hours.

Taught by the 2019 Basler Chair of Excellence Dr. Eric Avery, physician and visual artist, this course will explore relief printmaking techniques such as woodcut and linoleum to produce work engaging social and political content. The form of resulting work may vary from traditional relief print substrates to non-traditional substrates such as artist books/zines, installations, multiples and alternate surfaces and scale. The goal of expanding form is a strategy for increasing social and political engagement of work. Drawing skills are required.

Taught by the 2019 Basler Chair of Excellence Dr. Eric Avery, a physician and visual artist, this course explores the intersection between visual communication and public health practice to address the opioid epidemic. Students working collaboratively will imagine and create art interventions that address multi-dimensions of the crisis. Students enrolled should expect interactions with health clinics/providers and harm reduction activities as well as hands on art-making activities such as drawing, relief printmaking, and graphic design. Class work will be exhibited/displayed in "Epidemic," an

BIOL 1010-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Send permits requests along with your E# and course CRN to kalism1@etsu.edu. Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit (purchased separately) is mandatory; information for obtaining this kit will be provided by your instructor. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need to copy/paste the link). Please be advised that for the 900 section you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You will be required to submit electronic photos and/or video recordings of yourself performing the home-based lab exercises in order to receive full credit. Other requirements will be addressed by the instructor. Students wishing to attend a campus-based classroom section must enroll in another section of BIOL 1010. The lab portion is included in this course. You are not required to register for the BIOL 1011 co-requisite.

BIOL 1020-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Send permits requests along with your E# and course CRN to kalism1@etsu.edu. Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit (purchased separately) is mandatory; information for obtaining this kit will be provided by your instructor. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need

to copy/paste the link). Please be advised that for the 900 section, you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You will be required to submit electronic photos and/or video recordings of yourself performing the home-based lab exercises in order to receive full credit. Other requirements will be addressed by the instructor. Students wishing to attend a campus-based classroom section must enroll in another section of BIOL 1020. The lab portion is included in this course. You are not required to register for the BIOL 1021 co-requisite.

CSCI 3700-901 (Hendrix) CSCI 3700 is offered online fall, spring, and summer semesters. Online summer sections are open to all interested students. Fall and Spring online sections are open to students enrolled in distance programs where taking the course online is logistically required. To request a permit, please visit https://www.etsu.edu/cbat/computing/permitrequest/csci3700.php

Special Topics: Data Analytics Prerequisite: CSCI 3700 or CSCI 3020 or Permission of Instructor Data analytics will provide an introductory, hands-on exploration of large data sets framing business decision-making processes. The course will assist students in understanding how data is captured, prepared, organized, categorized, and visualized in order to identify patterns and create predictive models. Course activities will include exposure to big data storage, data-mining techniques, and data presentation. Please contact Mr. Desjardins (desjardinsm@etsu.edu) or Mr. Blankenship (blankenshise@etsu.edu) for more information.

Special Topics: Artificial Intelligence Prerequisite: CSCI 2210 (CSCI 3230 Recommended). Artificial Intelligence (AI) is a broad field of study used in many types of research. Students will study AI methods, and their applications, using a common programming language. AI topics and methods may include an overview of AI, ethical issues in AI, intelligent agents, problem-solving and searching, knowledge representation, planning, decision-making, constraint propagation, natural language processing, statistical AI, and introductory machine learning. For graduate students, research and development of an application of AI to a real-world problem is an integral part of the course. Please contact Dr. Bennett (bennetbt@etsu.edu) for more information.

Special Topics: Wireless and Mobile Networks Prerequisite: CSCI 3400 and MATH 1530 or permission of the instructor. This course provides basic knowledge and understanding of mobile communication and computing concepts. The course also examines the internal mechanisms by which mobile communication networks provide data transfer service for attached devices and the architecture of ad hoc and wireless networks. This course will provide a natural extension to the CSCI 3400. Please contact Dr. Khan (khanms@etsu.edu) for more information.

Special Topics: Firewalls and VPNs Prerequisite CSCI 3400 or permission of instructor. Firewalls and VPNs is an in-depth hand-on exploration of firewalls, access control lists, network address translation (NAT), network segmentation, de-militarized zones (DMZ), forward/reverse proxies, and VPNs. The course content explores firewall, proxies, and VPNs types and technologies, topologies, and their relationship to the OSI model. Course content includes configuration guidelines and pitfalls, CLI and GUIs, enterprise architecture and management, UTM, site-to-site and remote access VPN, digital certificates, X.509, and public key infrastructure (PKI). Contact Mr. Di Fabio, difabio@etsu.edu, 439-3303, with questions.

Note: ENVH 3040 990 is a live video streaming section. Students can elect to log in to the live class using a computer at the same time ENVH 3040 501 is scheduled or students can watch the recorded lecture once it has been posted to D2L. For minimum computer system requirements and additional information please go to https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to take exams at an approved testing center. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a classroom section must enroll in ENVH 3040 501. For further information, please contact the department at (423) 439-5243.

Winter Session

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable

Note: "The professor invites students to contact him silver@etsu.edu to be granted access to the first module (from last summer's course). This will allow you to "sample" the narrated PPTs and coordinated materials. He will also provide a copy of last year's syllabus upon request. This year's will be available a few days before the beginning of Winter Term." ENVH 3040 W01 is being taught in a very highly accelerated format in winter term. A minimum of two modules will be covered each week. A module includes readings, discussion forum, study questions, and a quiz. (The format used in other semesters has typically been one module per week). Students should not take this course if they have more than one outside commitment such as: another course; a job; family care duties; etc. Ambitious travel is ill-advised. No deadlines will fall on Christmas Day or New Years' Day. However, deadlines may occur in the early afternoons on the respective "eves" of the holidays (i.e., 12/24 and 12/31).

NOTE: GEOG 1012-990 is a live video streaming section. Students will log in to the live class using a computer at the same time GEOG 1012 section 501 is scheduled. For minimum computer system requirements and additional information please go to https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in another section of GEOG 1012.

Mathematics

First 7 Week

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable

NOTE: MATH 1710-FD1 meets the first seven weeks of the term (January 14- February 27) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom."

For minimum computer system requirements and additional information please go here: https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). The proctoring policy of this course may require you to attend an approved Testing Center. Please contact the instructor (cintronarias@etsu.edu) for questions concerning this policy. The methodology of choice in this section is known as "Flip the Classroom," where students are expected to have internet access regularly. Moreover, it is expected students do preparation work prior to each lecture, including: reading materials; watching video lectures; and answering online quizzes.

NOTE: MATH 2120-501 is a classroom-based section taught and delivered by Instructional Television. Students will attend classes in person on ETSU's main campus as scheduled. Recordings of each class session will be available via the course D2L page. Students wishing to stream the class live from home must enroll in MATH 2120-990. The adopted textbook for MATH 2120-501 is Notes on Diffy Qs: Differential Equations for Engineers by Jiri Lebi. A free pdf-copy can be downloaded from the URL http://www.jirka.org/diffyqs/ (you will need to copy/paste the link). Even though the textbook is free, students may be expected to purchase an online access code; instructions will be provided in the syllabus by the first week of classes. Students are expected to have internet access regularly (either on-campus or off-campus). Examinations will be proctored at the Testing Center, located on the first floor of the Charles C. Sherrod Library, at times outside the regular meeting times of this section. Students are strongly encouraged to bring a laptop or tablet to the classroom. Contact the instructor (cintronarias@etsu.edu) for questions or to make special arrangements.

PMGT 5140 section 990 is a live video streaming section. Students will log in to the live class using a computer at the same time PMGT 5140 section 501 is scheduled. For minimum computer system requirements and additional information please go here: https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in another section of PMGT 5140.

SOWK 4957-001 Special Topic "Harry Potter & the Quest for Social Justice" Course Description: The social work profession places an emphasis on social justice and how social workers can recognize, advocate, and intervene on behalf of individuals, groups, and communities. This class will take a two-pronged approach in analyzing the Harry Potter books and movies as they relate to social justice. The

first will look at the series as a work of fiction and how it relates to our muggle world and the experiences of muggles. The second approach will analyze the wizarding world within Harry Potter as a real social system in and of itself. As Sims (2012) states, "we purposely blur the distinction between life and art with the hope that, after viewing the latter sociologically [and through a social work lens], readers [and students] might begin viewing the former in the same manner" (p. 6). This class will provide an enchanted environment where students will learn to analyze 4 themes central to social work: 1) the intersectionality of cultural identity, 2) effects of trauma 3) systems of power and privilege, 4) and the change agent(s).

SOWK 4957-002 Special Topics "Mental Health Concept" Course Description: This course is designed as an introduction to the major concepts of mental health. The purpose of the course is to provide an overview for students considering an internship or job that involves working with persons with mental illness. It is also designed for students considering graduate education in a discipline involving clinical practice. The primary areas of focus are: major categories of mental illness, regions and workings of the brain, major therapeutic treatment approaches to mental illness, and major pharmacologic treatment approaches to mental illness.

SOWK 4957-500 Special Topic "Child Trauma & Policy" Course Description:This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

SOWK 5957-001 Special Topic "Harry Potter & the Quest for Social Justice" Course Description: The social work profession places an emphasis on social justice and how social workers can recognize, advocate, and intervene on behalf of individuals, groups, and communities. This class will take a two-pronged approach in analyzing the Harry Potter books and movies as they relate to social justice. The first will look at the series as a work of fiction and how it relates to our muggle world and the experiences of muggles. The second approach will analyze the wizarding world within Harry Potter as a real social system in and of itself. As Sims (2012) states, "we purposely blur the distinction between life and art with the hope that, after viewing the latter sociologically [and through a social work lens], readers [and students] might begin viewing the former in the same manner" (p. 6). This class will provide an enchanted environment where students will learn to analyze 4 themes central to social work: 1) the intersectionality of cultural identity, 2) effects of trauma 3) systems of power and privilege, 4) and the change agent(s).

SOWK 5957-201 Special Topics "Treating Trauma" Course Description: This course integrates trauma theory, including the neurobiology of trauma, to learn to critically assess conceptualizations and the long-term negative sequelae of trauma. A strengths-based perspective will be used to examine the complex issues regarding the range of traumatic events including war trauma, domestic violence, childhood abuse and neglect, and natural disasters. Evidence-based treatments that provide intervention and support will be provided.

SOWK 4957-W02 Winter Session Special Topic "Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 4957-W03 Winter Course Special Topic "Indigenous Approaches to Environmental Justice" Course Description: This inter-professional education course for social work and environmental health students examines approaches to collaborative environmental justice using examples of Indigenous efforts and accomplishments in environmental preservation. The course explores the impact environmental justice efforts have both locally and globally as well as the effect it has on all forms of life. Environmental justice is examined from ecosystems, policy, and environmental health perspectives. Students develop and implement inter-professional collaborative action plans to promote environmental justice. This course is taught online and is asynchronous.

Students enrolled in SPED 4825 will complete a 30 hour practicum during the day in an assigned public school. A Criminal History Background Check is REQUIRED for SPED 4825. The Criminal History Background Check is required by Tennessee State Law. The process of obtaining a background check takes up to 4 weeks, so please obtain this 4 weeks prior to the beginning of the Spring 2018 semester. Failure to complete the background check in a timely manner may result in the student being dropped from this course and co-requisite courses. Background Check Information is available at http://www.etsu.edu/coe/

NOTE: ENTC-5800-995 is a WebEx Online Classroom based live video streaming section. Students will log in to the live class using a computer at the same time ENTC-5800 section 201 is scheduled. For minimum computer system requirements and additional information please go to https://help.webex.com/docs/DOC-4748 (you will need to copy/paste the link). Please be advised that for the 995 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in another section of ENTC-5800.

SOWK 5957 Special Topic "Brief Treatments in Social Work Practice" Course Description: This advanced practice elective covers theories and models of brief clinical social work practice. Application of two specific theories will be the focus of the course. Skill building, critical thinking, and utilization of empirical support are emphasized.

SOWK 5957-812 Special Topic "Motivational Interviewing" Course Description: The purpose of this advanced practice course is to build on the practice knowledge and skills presented in the Concentration Direct Practice required course sequence. Students will learn the history, theory, and technique of a practice model designed to help reduce ambivalence and increase motivation to change among consumers of social work services who may initially present with disinclination or mixed feelings about the possibility of behavioral change. Students will learn via multiple modes: lecture, class discussion, videos, class demonstrations, role-play, and written assignments.

Winter Session

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable

SOWK 5957-W03 Winter Session Special Topic " Family Violence" Course Description: Violence is endemic in our society. This online elective course will focus on the occurrence of intrafamilial violence. Family Violence will help students obtain substantive information about family violence, foster an understanding of the magnitude of the problem and the devastation it can cause, and provide students with practical information on prevention and treatment. The general topics for the course have been chosen specifically to cover the arenas of violence experienced by family members, including the emotional, physical, and sexual abuse of children; adult survivors of childhood physical and sexual abuse; women who are battered by partners; battering in lesbian and gay relationships; sibling sexual abuse, and elder abuse. In addition, Family Violence addresses the treatment of offenders, specifically batterers and adult and juvenile physical and sexual offenders. Less empirically informed topics such as women who sexually abuse their children and women who batter their partners also will be explored and discussed. All issues and topics are considered within an historical and contemporary socio-cultural and political context. Sexism, racism, ageism and the stereotyping of various ethnic and cultural groups will be identified and discussed as they form and influence the context of family life. The myths of family violence will be identified and demystified. Issues of social and economic justice for clients will be addressed. Relevant research will be reviewed as it informs clinical social work practice and will be assessed for biases. Students are expected to become aware of their own biases and the potential impact on their practice. The course will examine the social construction of violence and the socio-cultural maintenance of violence as it informs treatment.

SOWK 5957-W08 Winter Course Special Topic "Indigenous Approaches to Environmental Justice" Course Description: This inter-professional education course for social work and environmental health students examines approaches to collaborative environmental justice using examples of Indigenous efforts and accomplishments in environmental preservation. The course explores the impact environmental justice efforts have both locally and globally as well as the effect it has on all forms of life. Environmental justice is examined from ecosystems, policy, and environmental health perspectives. Students develop and implement inter-professional collaborative action plans to promote environmental justice. This course is taught online and is asynchronous.

SOWK 4957-583 Special Topic "Child Trauma & Practice" Course Description: This course is the second in a series of two courses offered as part of the Trauma and Children track. It is designed to assist students in acquiring the practice skills to become culturally competent child welfare workers. The course will analyze the practices of in social services that provide preventive, case management, out of home care, treatment, and rehabilitative services aimed at children, youth and families. This course will prepare students to practice in the child welfare field by teaching them the skills and modalities that are used with children, youth, and families who are the focus of child welfare intervention. Students will gain the values, knowledge and skills needed, as well as information about the latest trends and best practices in the field of foster care and adoption.
