

Future AP Bio student,

5/17/2024

Welcome to the pinnacle of AP Science! I hope you are ready to work hard and persevere this year... it's going to take a lot out of you.

If you are able to keep going and stick through it even when you're burnt out, I have confidence in your ability to pass this class. However, I would like to give you some tips I wish I had before this class.

(1) Study on your own! Yes, you will have in-class assignments, but you must read the book and watch the AP videos to truly understand. This will boost your confidence 110% on the AP Exam.

(2) ASK QUESTIONS. This is a hard class and you cannot afford to misunderstand or be confused on a concept because it will do nothing but inhibit your chance to succeed. You also have to be able to know what you don't know... so look back at #1.

(3) Laugh at Mr. Tadlock's jokes. They're witty, so you may miss them if you don't pay attention. But he's a very funny guy and makes this class quite enjoyable.

From,

AP Bio Graduate
